

SEE, UNDERSTAND, AND SECURE ENDPOINTS, EVERYWHERE

Transform Dark Endpoints into Resilient Endpoints with the
Cloud-Based, Firmware-Embedded Absolute Platform

ABSOLUTE VISIBILITY AND RESILIENCE FOR EVERY ENDPOINT

ABSOLUTE®

DARK ENDPOINTS INCREASE BUSINESS RISK

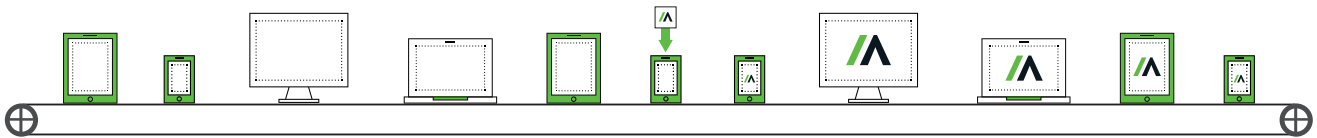

Dark or invisible endpoints are breeding grounds for security incidents. Users and their devices are always on the move, with sensitive data and intellectual property in tow. You hold all of the responsibility for protecting them—but often none of the power—as endpoint security agents are easily removed or disabled.

ONLY ABSOLUTE TAKES ENDPOINT SECURITY TO A LEVEL DEEPER WITH EMBEDDED PERSISTENCE

Absolute's patented Persistence technology is already embedded at the BIOS level of the firmware of mobile and desktop devices by the world's leading manufacturers. While other vendors provide bolted-on security products, Absolute's Persistence technology cannot be removed, even if the device is re-imaged, the hard drive is replaced, or the firmware is flashed. No other solution has this capability.

ABSOLUTE SOLUTIONS

Bridging the gap between security and IT operations, only Absolute enables you to see and secure every endpoint, find at-risk data, rapidly remediate vulnerabilities, and ensure compliance in the face of insider and external threats.

SELF-HEALING EMBEDDED PERSISTENCE

THE ABSOLUTE CLOUD-BASED PLATFORM

| DEVICE | APPLICATION | DATA |
|---|--|---|

ABSOLUTE PLATFORM BENEFITS

- Dramatic improvements in security operations speed and efficiency
- Reduced IT help desk demands through automated agent repair
- IT asset loss prevention and life cycle optimization
- Faster, easier and more accurate compliance audits
- Reduced organizational liability and security risks

ABSOLUTE BUSINESS IMPACT

The Total Economic Impact of the Absolute Platform, a commissioned 2018 study from Forrester Research documented significant savings over three years including an average of:

COST SAVINGS

146% ROI
(return on investment)

< 6 months
payback

\$3,500,000
over 3 years

MEAN TIME TO REMEDIATE (MTTR) SAVINGS

12 minutes saved
per incident

2,520 hours saved
annually

\$393,904
efficiency improvement

IT HELP DESK PRODUCTIVITY

10 minutes saved
per request

1,260 hours saved
annually

\$140,680
efficiency improvement

IT ASSET LOSS & DATA BREACHES

Reduced losses
via endpoint telemetry

\$939,060 saved
over 3 years

\$2,049,085
IT asset life cycle optimization

*All values in US dollars

EXTEND THE MOST RESILIENT ENDPOINT VISIBILITY AND CONTROL TO YOUR ENTIRE ORGANIZATION

SECURITY PROFESSIONALS:

Use Absolute to fill in endpoint blind spots, strengthen security agent resiliency, and remediate dark, vulnerable devices.

IT ASSET MANAGERS:

Finally see all your devices and improve endpoint hygiene, saving you time and money.

COMPLIANCE OFFICERS:

Accelerate compliance initiatives and prove data is protected at all times to avoid penalties—without disrupting the workflow of your users.

HR LEADERS:

Tap into rich user behavior analytics to spot and stop insider threats.

BUSINESS LEADERS:

Rest assured you have complete situational awareness, the highest levels of compliance, and always-on endpoint protection to reduce risks throughout the business.

"Absolute Persistence gives us the assurance that theft is not a recurring scenario and that stolen devices don't become breach liabilities. Our other tools were not able to detect these devices and give us the sense of security that we now have."

**INFOSEC MANAGER,
HEALTHCARE ORGANIZATION**

"We bought Absolute because of our workforce being so mobile that we needed the ability to track the devices so that in the case of theft, we would have the ability to wipe the data. The security compliance piece has become a value-add that we leverage fully today."

**CIO,
PUBLIC INFRASTRUCTURE COMPANY**

"There's nothing else out there that gives us that complete visibility of our devices... And it's very much an insurance policy for us, knowing that, as much as we protect our data, should the devices disappear, we can safely say to our clients, 'The data has been wiped; you don't need to worry.'"

**INFOSEC MANAGER,
CORPORATE LEGAL SERVICES COMPANY**

ECOSYSTEM PARTNERS

Absolute Persistence is embedded in popular endpoint devices from major manufacturers and can be activated at the factory or after sale. Absolute is also integrated with almost 100 endpoint security controls and monitoring applications including enterprise applications, SIEM tools, patch management, anti-malware/anti-virus, encryption, endpoint protection platforms, data loss prevention and VPN clients.

EMBEDDED IN THE FIRMWARE OF ENDPOINTS BY LEADING MANUFACTURERS

Activate the Absolute platform today for scalable, streamlined, and resilient endpoint security that more than 15,000 companies worldwide trust.
