

ABSOLUTE UPGRADE SERVICES

PROFESSIONAL SERVICES

PROVIDING YOU WITH THE SUPPORT YOU NEED TO:

Accelerate your time to value

Get new functionality configured by experts

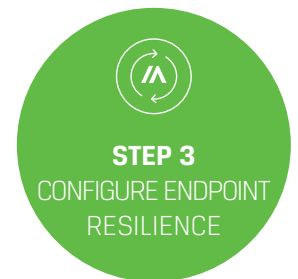

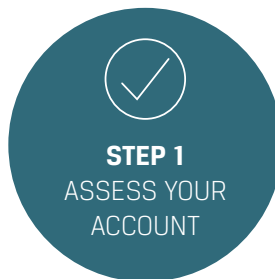

Maximize return on investment

Get the most out of your upgraded platform

Reduce implementation risks

Avoid delays and uncertainty with help from our team of experts

The Resilience edition of the Absolute platform provides key features and functionality that, when configured properly, will help you significantly improve your organization's security posture. As part of your upgrade, Absolute will provide enablement and configuration services that will help ensure you can efficiently and effectively leverage the enhanced features to solve complex issues and ultimately realize maximum return on your investment.

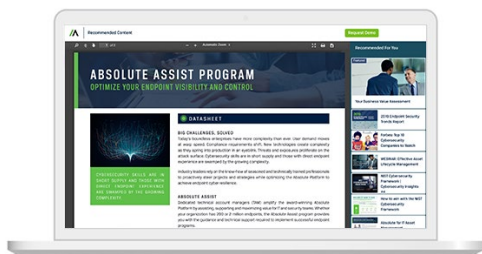

STEP 1 | ASSESS YOUR ACCOUNT

Our technical consultant will review your current implementation of Absolute to ensure it is optimally configured, including all base configurations required to optimally run and maximize ROI.

What's included?

- Review of your Absolute console and configuration
- Review of the health of your agent deployment across your endpoint population

Need regular assistance?
Learn about [Absolute Assist](#).

STEP 2 | ENABLE YOUR TEAM

Our technical consultant will transfer all of the appropriate knowledge to your team in order to maximize your understanding of the upgraded Absolute platform and how it can be leveraged to address your specific business challenges, strengthen your security posture, and increase your team's efficiency.

MAKE A DIFFERENCE TO YOUR ORGANIZATION

Enable your team

Your team will be equipped to leverage the power of Absolute Resilience and address the specific challenges of your organization

Optimize your configuration

Your upgraded Absolute platform will be optimally configured to support your specific use cases

Ensure organizational resilience

Ready your team to solve the IT and security challenges of tomorrow

What's included?

- Thorough walkthrough of the Absolute console, based on your specific needs
- Deep dive into the new functionality: Application Persistence, Reach, Endpoint Data Discovery

STEP 3 | CONFIGURE ENDPOINT RESILIENCE

Once your Absolute account has been confirmed to be in perfect shape, and your team is familiar with the new tools they will be leveraging going forward, it is time for our technical consultant to help you configure, test, and activate all of your new functionality.

What's included?

- Application Persistence: configuration and testing
- Reach: testing and best practices
- Endpoint Data Discovery: policy creation and activation

ABOUT ABSOLUTE

Absolute empowers more than 12,000 customers worldwide to protect devices, data, applications and users against theft or attack – both on and off the corporate network. With the industry's only tamper-proof endpoint visibility and control solution, Absolute allows IT to enforce asset management, security hygiene, and data compliance for today's remote digital workforces. Patented Absolute Persistence™ is embedded in the firmware of Dell, HP, Lenovo, and other manufacturers' devices for vendor-agnostic coverage, tamper-proof resilience, and ease of deployment. See how it works at absolute.com and follow us at [@absolutecorp](https://twitter.com/absolutecorp).
